# Kapci Sealer 751

## Description

Kapci Sealer 751 is a priming coat based on modified acrylic resin, especially designed for application over concrete, cement, plaster, bricks and stones. It is used for surface pretreatment.

## Technical Data

Viscosity	18±3 ku
Solid content	44±3 %
Density	1.32±0.03 gm/cm <sup>3</sup>
Gloss	Matt
Coverage	16-20 m <sup>2</sup> /kg (as ready for use products)

## Product Features

- Chemically resistant to alkaline compounds;
- Good impregnating ability;
- Easily applied;
- Fast drying;
- High coverage rate;
- Economic cost;

## Substrates and surface preparation

Kapci Sealer 751 is recommended as priming coat for cement and plaster surfaces to consolidate the superficial layer of such surfaces. It is used as a sealing coat to insure excellent adhesion of subsequent water based coating system. All new or already painted surfaces should be free from dust, grease and waxes.

## Application

Apply Kapci Sealer 751 in one coat after dilution with water (100 % dilution) to reach the application viscosity. Apply Kapci Putty 750 or Kapci Putty 749 in two cross layers.

## Drying time at 25 °C & 60% R.H

Initial drying time	1h
Final drying time	6h
