Kapci 2750 Special Wood Stain

1- Product properties

Kapci 2750 is a wood stain especially designed for application over difficult substrate to adhesion such as polyethylene, polypropylene and polyurethane foam. Fast drying, good adhesion and light fastness are distinguishing properties of Kapci 2750. The product has very good light fastness but it is not recommended for application in exterior. It can resist heat up to 80°C and it is not affected by cooling.
